

Find a SASRI sugarcane Extension Specialist *in your area!*

- A grower-focused advisory service dedicated to supporting the sugar industry.
- One of the very few private extension services in the agricultural sector.
- Enables close relationships and engagement between extension and researchers to the direct benefit of sugarcane growers.
- Regionally based.
- A vital bridge between SASRI and grower and miller stakeholders, listening to needs, encouraging participation in research projects and trials, and sharing research outcomes.
- Plays an active line-management role in the SASRI Biosecurity Inspectorate, providing technical support and guidance for pest, disease and variety control.

This month, SASRI will showcase its large-scale Extension Specialists. Next month, the focus will shift to the small-scale Extension Specialist in your region.

 **Kalisha Naicker**
(SASRI Publications Officer)

Large-scale grower Extension Specialists
