

BIO-SEGURANÇA ALERTA!

A praga do inseto **Chilo** ameaça a cana de açúcar na África do Sul. Pedimos a vossa assistência a procurar os danos e as lagartas, ilustrados aqui.

Buracos na folha

Brotação lateral nos colmos

Constricção nos entrenós dos colmos

Mariposa

Ovos

Lagarta

Danos na cana

Se encontrar danos ou lagartas, informe o seu Especialista de Extensão local.

Obrigado por nos ajudar a manter o controle desta praga.
