

AGRICULTURAL REMEDIES REGISTERED FOR USE IN SUGARCANE IN SOUTH AFRICA - OCTOBER 2024

Products in **orange font** are considered 'restricted remedies'. A restricted remedy is a pesticide classified under the Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act (Act No. 36 of 1947), which can only be sold or used by a person holding the appropriate certification, such as a Pest Control Operator (PCO) licence, due to its potential risks and the need for specialised handling. These products are likely to be phased out within a few years.
